HT-Z320 Home Theater System

The HT-Z320 Home Theater System reveals the smallest details in sight and sound, to deliver the greatest impact from all your digital media. An HDMI connection up-converts output to near-1080p, so your DVDs become instantly crisper and clearer when displayed on your HDTV. With Auto Sound Calibration (ASC), the output from each speaker is balanced for optimal sound reproduction in any room. And every type of audio is delivered with clearer sound and less distortion, thanks to front and center speaker cones made with "green" high-density, bio kelp fibers.

- 1 DVD/CD
- 1000W Output power
- DVD/DVD-R/DVD-RW/CD/CD-R/CD-RW/MP3/ JPEG viewer/WMA/DivX playback
- HDMI with 1080p up-scale
